Chicago Section IFT
the First Section

November 15, 2012

Dear Attendees, Exhibitors and Guests,

On behalf of all of us here at your Chicago Section IFT may I welcome you to Chicago and the 2012 Suppliers' Night!

This year we are pleased to be celebrating our 50th Suppliers' Night since the inception of the Chicago Section. From just 11 exhibitors at our first event to well over 500 exhibitors and 3,000 attendees tonight, Suppliers' Night has grown to become a significant date on the calendar of the U.S. food industry and we are pleased you could join us here today.

Our "*Innovation NOW! Forum*" is now in its fifth year of featuring presentations from leading industry professionals focused on cutting edge technologies, products, industry services and equipment. There will be a total of nine one hour presentations spread over three conference rooms beginning at 8:30 AM with Stephen S. Nicholson presenting the keynote address at 11:30 AM to conclude the Forum. Please consult the Forum Brochure for presentation details, times and room locations.

The Expo will begin at Noon and run through 5:30PM. Once again we have over 500 exhibitors here this evening offering the technologist the latest in leading food ingredients, processing technologies, laboratory equipment and other services. We will conclude Suppliers' Night with the Social Hour from 5:30-6:30 PM and we will be taking the opportunity to recognize persons and organizations that have made a significant contribution to the success of Suppliers' Night over the last 50 years. Please take the moment to gather with us in the registration area to socialize with peers, enjoy the refreshments - with a slice of cake - and help us celebrate our 50th Suppliers' Night in style.

Now, Go Enjoy The Show!

Sincerely,

James N. Anderson
Chairman - Chicago Section IFT Suppliers' Night

The Innovative Economist Presents:

The Secret Drivers of Food Innovation

Globalization. Obesity. Hottest year on record. What do they have in common?

Find out at the eye-opening Innovation NOW! keynote presentation when Stephen S. Nicholson, Chief Economist of International Food Products, reveals the secrets – and the numbers – behind some of the most significant food innovations of all time.

Frequently sought out and quoted by *Bloomberg* and *Reuters*, Mr. Nicholson has more than 30 years of experience in commodities, ingredients and economics, and shares his insight with audiences throughout the world.

90 YEARS IN PUBLISHING...

Food Business News

Published bi-weekly, *Food Business News* is a "Must Read" for the food industry. Get important information on ingredient markets, new products, marketing trends, consumer trends, government regulations, company news and important industry news features.

Milling & Baking News

Bi-weekly sister publication to *Food Business News*. It's the news magazine of grain-based foods — full of information that's crucial to executives and managers whose jobs demand thorough and accurate reporting. Everything critical to grain-based foods is covered — industry news and analysis, ingredient markets and in-depth feature articles focusing on the issues and events important to grain-based foods.

Baking & Snack

Baking & Snack specializes in in-depth, actionable information that helps bakeries and snack food manufacturers run their plants more efficiently and their companies more effectively. It offers news, company and plant reports; ingredient and technical features; processing and engineering articles; new products showcase; industry trends, statistics and data.

Meat&Poultry

MEAT&POULTRY provides the trends, issues and technologies that effect the North American meat, poultry and seafood industry. Our editors tackle government regulations, labor relations, food safety and quality control. Everyone from processors and further processors to wholesalers, distributors, fresh meat packers, pet food manufacturers, and meat, poultry and seafood buyers will find *MEAT&POULTRY* an invaluable source.

World Grain

Each issue of *World Grain* offers informative operation features for grain handling, flour milling and feed processing, as well as industry news, relevant special reports, commodity market updates, new product technology and in-depth looks at industry activities around the globe.

bake

Bake magazine reaches the retail bakery, specialty bakery, foodservice/bakery café and intermediate wholesale bakery audience ten times per year. The publication is focused on helping an industry of artisans advance and grow their businesses. From business and management issues to the latest in production technology and industry trends to equipment, ingredients and labor-saving ideas, *bake* covers all aspects of running a profitable bakery operation.

instore

Instore is published seven times per year exclusively for supermarket and club store bakery, deli and foodservice executives. *Instore* focuses squarely on product trends for instore bakery, deli and foodservice, successful merchandising strategies and consumer analysis.

Sartori specializes in cheese solutions expertise, dedicated to working to create unique solutions to solve our customers' challenges.

WHERE DOES BREAKTHROUGH SNACK INNOVATION BEGIN? IT BEGINS WITH

Science People

Neel Varde is one of Roquette's Science People. Whether he's in the R&D lab with customers or out for a jog, Neel sees possibility. Like everyone at Roquette, he views the world through the lens of creative, forward-looking science. He knows that it's not the lab coats or the equipment that make us Science People—it's what's inside us, what inspires us to see all of life from the inside out. Always imagining, always seeing solutions, Roquette's people are Science People.

Neel Varde
Product Manager, Human Nutrition

Partner with Roquette America today to develop applications with SweetPearl[™] maltitol for delicious reduced-sugar chocolate, confectionery, and baked goods.

WHY JOIN THE CHICAGO SECTION INSTITUTE OF FOOD TECHNOLOGISTS?

The Institute of Food Technologists is a unique umbrella organization, incorporating all diverse disciplines of food technology. Its members include:

- Food technologists and scientists
- Engineers
- R&D and quality control and assurance managers
- Sales and marketing executives
- Government regulators
- Educators
- Individuals in all food-related fields

Chicago Section IFT is the largest regional section. Its activities include:

- Regular technical meetings focusing on a broad spectrum of food technology topics
- Educational courses and symposia
- Opportunities for professional and personal development

Chicago Section IFT offers a variety of activities to broaden professional skills and to enhance relationships within the food industry. Chicago IFT offers many volunteer opportunities, including:

- Student affairs and scholarship
- Newsletter
- Employment
- World Wide Web Site
- Holiday party
- Hospitality/House
- Membership
- Program
- Summer activities
- Suppliers' Night
- Symposia
- Tanner Lecture

Meeting and working with peers helps professional development and offers personal satisfaction.

The IFT employment referral service helps members to research and secure positions within the food industry. The services offered include:

- Maintenance of resumes for inspection by employers
- Inspection of both local and national "Available Positions" lists
- Publication of "Positions Available" and "Situations Wanted" in the monthly newsletter

Become a member of the Chicago Section of the Institute of Food Technologists. Simply complete the application below, or on our website at
