Letter from the Chair

CSIFT Community,

It is hard to believe it is almost summer! We are hopeful that we will be able to get back to seeing each other in some capacity in the fall. Please keep your eye out for a survey coming out soon to give your input on events as we adjust back to a new normal.

This has been a unique and challenging time to lead the section through, but I am very proud of how CSIFT has still been able to create meaningful content and events for our members. I hope you were able to participate and join us in some of the events this past year. We have hosted over 20 events since last spring, including many great speakers, networking events, new professional events, and more. Keep your eye out for a few more fun events coming in June and July!

As I wrap up my term as Chair this summer, I just wanted to thank you again for your support of the section. We would not be what we are without the help of all our volunteers and members. I look forward to seeing all the great things to come and continuing to serve the section in my next role as Past Chair.

As always, please reach out to me or our Business Office (BusinessOffice@ChicagoIFT.org) with any questions, comments, or concerns about the section.

Sincerely,
Courtney Gwinn
Chicago Section IFT Chair
